

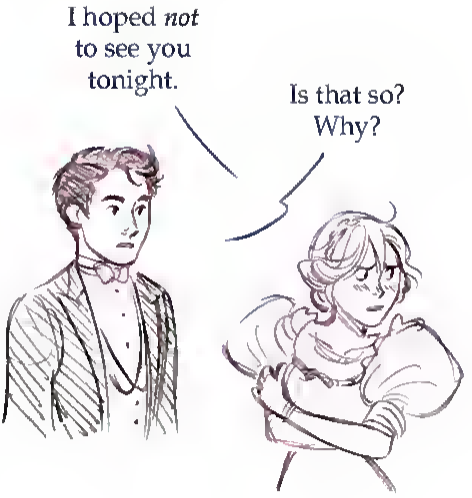
Hue
hue...

You always take whatever you want without asking for permission, don't you?

I hoped you'd come out to the balcony...
... but you took your time, Miss Abbott.

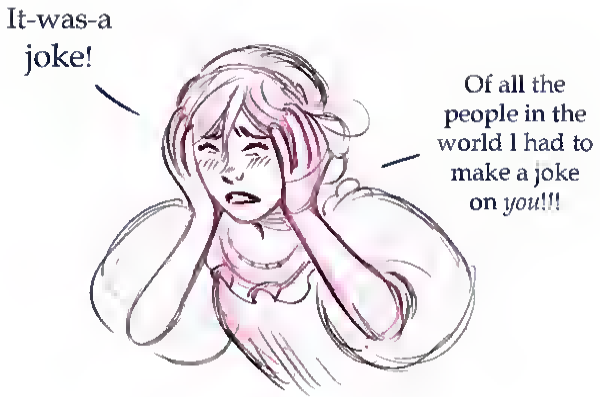


I hoped *not* to see you tonight.
Is that so? Why?

Ah, wait!
Is it...
... for the kiss you *stole* from me?

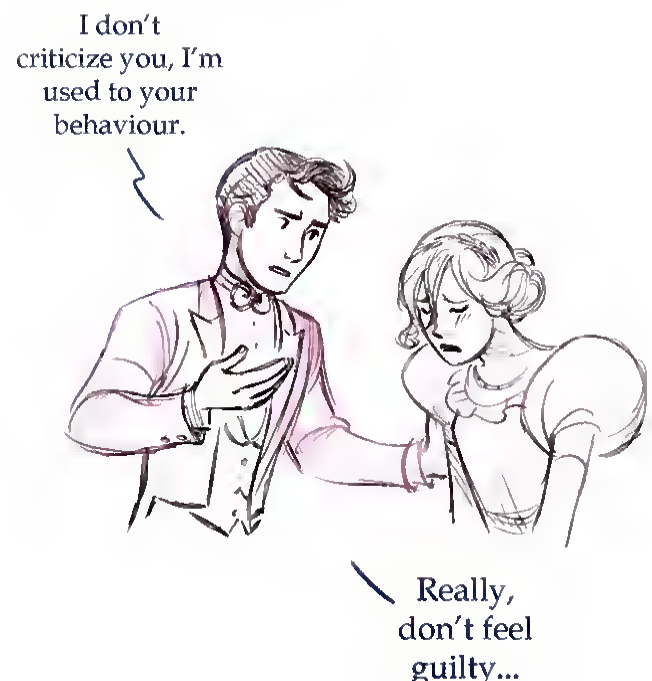
Eeeeek!

Pfft, come on! What happened, happened.
You are a weird person, that probably wasn't the weirdest thing you have done.



It-was-a joke!
Of all the people in the world I had to make a joke on *you*!!!

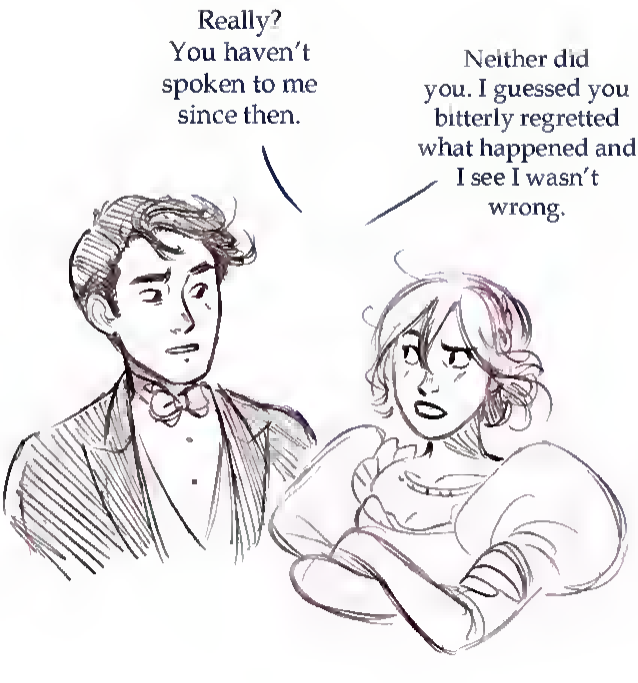
I can't stand
your criticism!



I don't criticize you, I'm used to your behaviour.
Really, don't feel guilty...

... if you can't help *throwing yourself at me.*
That's called *attraction.*

Stop laughing at me!!
Sorry, but you are overreacting.



Really? You haven't spoken to me since then.
Neither did you. I guessed you bitterly regretted what happened and I see I wasn't wrong.

Listen, may I have this dance to make peace with you?
What? You don't dance!

Usually I
don't.

Surprisingly you dance very well!
What kind of school do you think I attended?
A gentleman must dance properly.

Did you miss the ball waiting for me, doctor?
I'm not very fond of parties, don't worry. Was it fun?
As a matter of fact... it was a little boring. Thank you for a last dance under the moonlight.

It's been a pleasure.
The pleasure was mine.

Anyhow restrain yourself, please.
Don't try to kiss me by surprise... *again*.

Good night,
Miss Abbott!
Munch... night...
munch...

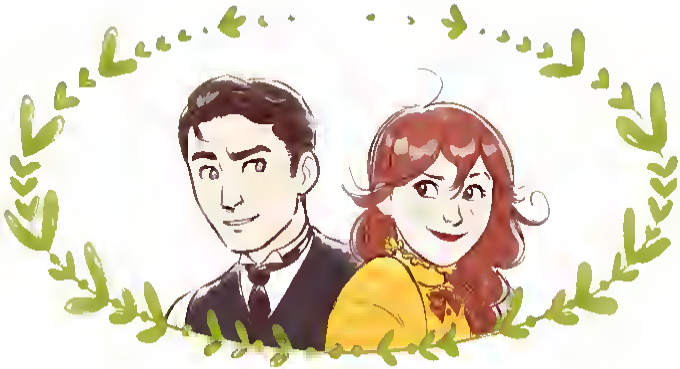
Music

Johann Strauss Jr

From Musopen.org and Freesound.com

I have to thank Raúl Arnáiz for his help adding the sound fx to this episode. Check his comic HOME (the sci-fi comic) if you want to see something GOOD.

And visit his work on Tapastic to see the perfect match between comic pages and music.



Miss Abbott and the doctor
